Patient Vital Signs & Monitoring Signals

SimVS In Hospital Patient Monitoring Suite

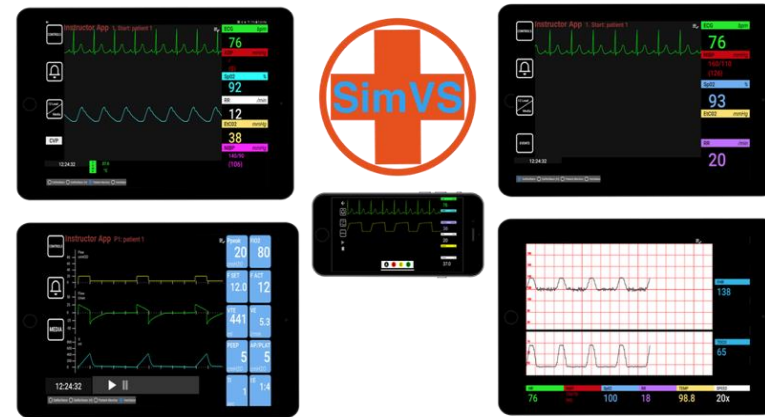

TERi™ Patient Simulator – LF04302

SimVS allows you to simulate vital signs and add interactive communication to your scenarios. Turn your low fidelity manikins in to high fidelity scenarios. Give vitals to your SP scenarios.

SimVS comes with over 100 prewritten scenarios, 40 nursing, 40 ACLS/PALS, 20 RT. [SimVS video](#)

Distance Learning SimVS - Online version can be used in the sim lab and for distance learning via a secure server in the cloud to interact with students from home.
